NOTE TO DONOR: If you make a donation of property for which you wish to claim a charitable deduction of \$500 or more, the Internal Revenue Service requires you to file IRS Form 8283 "Noncash Charitable Contributions." If you plan to claim a deduction for that donation or a donation of a group of similar property of more than \$5,000, and you wish The Salvation Army to execute Part IV "Donee Acknowledgement" of Form 8283 as the donee organization, you must present that Form 8283 for execution at the time of the donation. The Salvation Army will not be able to execute such forms at any time thereafter if the donated property cannot be traced. If, within three years of the date of donation, The Salvation Army disposes of any item of property which you identified as having a value of more than \$500 on a Form 8283 signed by The Salvation Army, The Salvation Army may be required to file an IRS Form 8282 with the IRS and send a copy to you. For more information, consult your tax advisor or visit the Internal Revenue Service web site, www.IRS.
