

Every year Women's Ministries has a goal to raise money for World Services. The World Services focus this year is **CHILD SURVIVAL**

The majority of deaths in children under the age of 5 years are due to a small number of common, preventable and treatable conditions, such as pneumonia, diarrhea, malaria, malnutrition & neonatal conditions, occurring singly or in combination.

**Please share a few dollars
to help us make our goal
& ensure children around
the world have a bright,
safe and healthy future!**
